## Your truckload safety net.

In times of market uncertainty and tightened capacity, finding a trusted resource to help you meet your transportation needs can be difficult. Pitfalls in the spot market/brokerage arena are many, and shippers are incurring hefty capacity penalties.

For all of your last-minute, seasonal, hard-to-move loads, or to eliminate penalties when you reach capacity with your current carriers, contact the *Capacity + Service Solutions* team at TranzAct.

**Capacity + Service Solutions** evaluates multiple shipping criteria including cost control, service commitments and special shipping needs to deliver the best carrier option to meet your specific objectives and ensure your satisfaction.

Our experts utilize an extensive network of qualified core carriers. Daily measurement of our service standards ensures a 99% or higher on-time pick-up and delivery schedule.

*Capacity + Service Solutions* incorporates our *Shipper Shield* program to exercise due diligence in carrier selection and ensure selection of only the most reliable, qualified carriers for your shipments.

This service is backed by TranzAct's reputation as a financially sound, responsible provider. TranzAct is a member of the Transportation Intermediaries Association (TIA) and is bound by the TIA Code of Ethics.
